Embarq Communications, Inc. d/b/a CenturyLink Communications

Tariff Service: Long Distance

This document is the complete version of the tariff on file and contains the following approved revisions. Detailed information is available for each revision on the Commission's E Tariff website (<http://etariff.psc.sc.gov>).

Revision	Date Filed	Effective Date	# of Pages
E2010-185	7/23/10	8/7/10	24
<p><u>Summary:</u> This filing proposes a one cent increase in the per-minutes of use rate for certain residential long distance plans, and a four cents decrease in the per minutes of use rate for one residential long distance plan. In addition, some of the impacted long distance plans required a name change to reflect the new per minute rates. The rate and name changes will take place on August 7, 2010. Customers were notified 30 days or more in advance by bill message of the rate and name changes.</p> <p>This filing also includes clarifying text for Enhanced Voice Solutions. This language already appears in the Company's Interstate Schedule business Schedule No. 2 and was inadvertently omitted from this tariff in prior filings. Customers are not impacted by these revisions.</p> <p>Additionally, this filing includes administrative changes reflecting the recent name change of "CenturyTel, Inc." to "CenturyLink, Inc." CenturyTel, Inc.'s Articles of Incorporation were amended by the Louisiana Secretary of State on May 21, 2010, changing the corporate name from CenturyTel, Inc. to CenturyLink, Inc. CenturyLink, Inc. is domiciled in Monroe, Louisiana.</p> <p>Trademarks and service marks owned by CenturyLink, Inc., formerly CenturyTel, Inc., which are used by the Company with permission, are listed on the Trade Names, Trademarks and Service Marks tariff page. This corporate name change does not impact the Company's legal or fictitious name as is reflected elsewhere in the Company's tariffs.</p>			
E2010-82	3/29/10	4/6/10	3
<p><u>Summary:</u> This filing adds language to clarify the Company's limitations of liability regarding service irregularities resulting from unauthorized access or hacking.</p>			
E2009-411	11/27/09	12/4/09	8
<p><u>Summary:</u> This filing introduces Casual Caller Service. Casual Caller was not technically feasible previously, since the Company, as a reseller, did not initially have its own CIC or network over which casually dialed calls could be made. Casual Caller Service is now available, subject to the availability of the necessary facilities and/or equipment, to any person who uses the Company's service from an equal access end office when the originating location is not presubscribed to the Company's services for long distance service.</p> <p>This filing also increases the charges for Busy Line Verification and Emergency Interruption and revises the manner in which those rates are presented. The Emergency Interruption charge formerly applied in addition to the Busy Line Verification charge when a customer requested interruption of a call after the operator verified a busy condition. Under the revised rate structure, the Emergency Interruption charge applies in lieu of the Busy Line Verification charge when a customer requests interruption of a busy line.</p> <p>Additionally, this filing revises the manner in which operator services surcharges are presented. The operator-dialed surcharge is being deleted and incorporated into the "Operator Assisted" rates. Operator Assisted rates will apply to all "00+ and 00- dialed" calls when operator intervention is required for billing verification. The transient rate column is eliminated under this filing and the operator services call placement charges are being standardized under this filing, resulting in certain rate increases as indicated by margin symbols.</p>			
E2009-354	10/5/09	11/6/09	2
<p><u>Summary:</u> This filing introduces the CenturyLink d/b/a as reflected on the revised Title page.</p>

Customers will be notified of this increase via bill message 30 days prior to the effective date.  This filing also makes text revisions for clarification. This filing also deletes certain 1000 Plan grandfathered options for which there are no remaining subscribers.

Also, various text changes were made to delete obsolete language, including the removal of the Casual Caller service option. Casual Caller has not been technically feasible since the Company, as a reseller, did not have its own network over which casually dialed calls could be made. This filing also deletes Business Flex 500 as there is no demand for this obsolete Service. This filing additionally includes the discontinuance of EMBARQ Calling Card Service. This service has been long declining due to the prevalence of prepaid calling cards and wireless phones. Nationwide, of the 91,000 active EMBARQ Calling Cards, fewer than 5,600 cards have been used during the last six months; 99 of the cards were used in South Carolina. Customers are being notified of the calling card discontinuance over several months.

Revision	Date Filed	Effective Date	# of Pages
E2007-158	9/13/07	9/21/07	11
Summary: The purpose of this filing is to introduce Enhanced Voice Solutions and grandfather the existing Voice Solutions product. Existing Voice Solutions customers will not be affected by this change.			
E2007-115	8/6/07	9/5/07	90
Summary: This filing proposes rate changes for a number of services, most of which are obsolete (grandfathered) services to which few customers are subscribed. These rate changes will standardize the company's intrastate and interstate per minute rates for numerous services. In general, the rates for the services most customers are subscribed are not changing or are being reduced. For those services that are affected, the revised rates will result in the standardization of rates for similar services. In addition, the names of many of those services are being revised under this filing to better define the nature of the service and its associated rate. For example, the former "Nickel at Night" plan which, when originally introduced featured a \$.05 per minute interstate only evening rate with variable intrastate rates, is being revised to better reflect the rates now applicable in both the interstate and intrastate jurisdictions. Customers affected by service name changes have been advised of such, and all customers who will experience a rate increase have likewise been notified.			
This filing additionally includes the discontinuance of two services. Nationwide, only 28 customers were subscribed to the grandfathered Unlimited Long Distance Canada - Option A Calling Plan option being discontinued. The use of EMBARQ Calling Card Service, also being discontinued, has been long declining due to the prevalence of prepaid calling cards and wireless phones. While the company has issued more than one million cards across its serving territory in conjunction with its long distance Dial-1 services, more than 800,000 of those cards have never been used. Nationwide, fewer than 4,000 EMBARQ Calling Cards have been used during the last six months. Customers are being notified of the calling card discontinuance over a several month period, with notice of that discontinuance also being provided in the letters customers received notifying them of their calling plan r			
E2007-105	7/24/07	8/23/07	6
Summary: (SC 07-34) This filing proposes miscellaneous text changes for correction, none of which impact customers or the manner in which services are provided. The pages herein correct certain revisions which were submitted by our letter dated July 17, 2006, with a proposed effective date of August 16, 2006. That filing was submitted as a 30-day filing due to the fact that services not previously existed in the tariff were introduced. This filing is submitted as a 14-day filing, although the proposed effective date is August 7, 2006, which will allow the currently pending tariff pages to become effective. These revisions will then immediately supersede the pages as specified above.			
E2007-104	7/24/07	8/23/07	3
Summary: (SC 07-32) This filing allows residence customer who purchase Simple Solution to subscribe to Solutions Unlimited - Option 4 at a discounted rate.			
E2007-97	7/17/07	8/16/07	26
Summary: This filing includes a number of text changes and corrections, none of which impact customers or the manner in which services are provided or billed. Consistent with the established rate presentation of monthly charges throughout the tariff, this filing adds clarifying language regarding application of monthly rates in those instances where there is not a separate intrastate monthly charge for those long distance services that are "add-on" services to the interstate service to which the customer is subscribed.			
This filing also includes the addition of certain "grandfathered" services to which customers are already subscribed. Under a filing submitted by the company dated April 21, 2006, we introduced a number of services to which customers were subscribed that were being migrated from Sprint during the legal separation of the two companies. Customers subscribed to the services being added under this filing were also migrated during that time; however, a recent audit of our customer base revealed that we inadvertently excluded these service offerings from our initial filing. Customers subscribed to these services are not impacted by this filing, since the terms, conditions and rates being introduced mirror those to which the customers were subscribed under the Sprint tariffs.			
This filing additionally reflects certain text and rate corrections, none of which impact customers. The rates being corrected under this filing mirror those in effect at the time the services were migrated from Sprint.			
E2007-50	4/23/07	5/1/07	3
Summary: This filing introduces a 10,000 minutes of use block of time option to Block of Time for Small Business. Also, this filing adds clarifying language and makes minor text changes.			

Revision	Date Filed	Effective Date	# of Pages
E2007-6	2/27/07	3/30/07	7
Summary: This filing reflects the grandfathering of various Solutions - Residence packages as qualifiers for specific LD plans. This filing also deletes Privacy ID as an eligibility option for three Solutions Service long distance service options. There are no customers who are subscribed to these services using Privacy ID as the eligibility criteria.

(C)

**Method of Calculation**

The airline mileage between two (2) of the Company's service locations is calculated as follows:

$$\text{Mileage} = \sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

##### 6.1.3 Enhanced Voice Solutions

**Enhanced Voice Solutions is a flat-rated service designed to meet the communications needs for mid to large business customers. Only associated customer locations are eligible to use Enhanced Voice Solutions services.**

(T)

(T)

If the Company determines the service is not being used for business service or in any other way violates the restrictions of this service, the Subscriber will be ineligible for the service and the Company may terminate the Customer's account.

Calls placed using Operator Services are charged at the applicable rates for those services in lieu of the rates specified herein for Enhanced Voice Solutions. Enhanced Voice Solutions has minimum annual commitment (MAC's) levels with each level having one through three-year commitment terms. Enhanced Voice Solutions is available to single and multi-location customers for outbound calls which originate using switched access facilities and terminate using shared use facilities. A term plan will automatically renew for an equivalent term and minimum annual commitment level at the rates in effect under the prior term plan, unless either the Company or the Customer provides written notification to cancel the plan, with such notification being received by the notified party not less than 45 days prior to the expiration of the term.

**6. BUSINESS SERVICES (Continued)****6.1 Message Telecommunications Service (MTS) (Continued)****6.1.3 Enhanced Voice Solutions (Continued)**

An Enhanced Voice Solutions customer must commit to one of the following minimum annual commitment levels of contributory usage charges: (1) \$3,000, (2) \$6,000, (3) \$12,000, **(4) \$36,000, or (5) \$60,000**. Enhanced Voice Solutions is available on a one-year, two-year or three-year basis. Contributory usage charges are aggregated across outbound, toll free, switched data (inbound and outbound); all locations and all jurisdictions (intrastate, interstate and international) in order to meet the minimum annual commitment level.

(N)

The Company reserves the right, after the conclusion of the first three billing months of the Enhanced Voice Solutions customer's contract, to move the customer to a lower commitment level that is more directly comparable to the customer's current usage. Enhanced Voice Solutions customers terminating all Enhanced Voice Solutions services prior to fulfilling their term commitment will be assessed a termination liability in an amount equal to the underutilized portion of the MAC plus the full MAC for any remaining 12 month periods in their term plan agreement. The termination liability will be billed in one lump sum. Customers will not incur this termination liability for their former term plan commitment if they request a new MAC equal to or greater than the previous level and agree to sign a new term plan agreement for a period equal to or greater than the term of their current plan. The customer will, however, be assessed the termination liability if they terminate all Enhanced Voice Solutions service prior to fulfilling their new term commitments.

The rates in effect upon the commencement of the customer's term plan will remain in effect for the duration of the term plan. If the Company decreases the rates for Enhanced Voice Solutions during the term plan, the Customer will receive the lower rates on their first invoice following the effective date of the rate decreases. The Customer may add associated locations at any time during the term. All usage from subsequently-added associated locations will be exempt from any rate increases for the remainder of the term.

**9. DATA SERVICES****9.1 Terms and Conditions**

In addition to the terms and conditions specified in Section 4 of this Tariff, the terms and conditions specified following apply to Data Services.

**9.1.1 Application for Service**

Application for Service is the Company order process that includes technical, billing and other descriptive information provided by the Customer which allows the Company to provide requested communications services for the Customer and Customer's authorized users. Upon acceptance by the Company, the Application for Service becomes a binding contract between the Customer and the Company for the provision and acceptance of services.

An Application for Service may be changed by Customer upon written notice to the Company, subject to acceptance and confirmation by the Company, provided that a charge shall apply to any change when the request is received by the company after notification by the Company of the acceptance and confirmation. Such charge shall be the sum of the charges and costs for access facilities and other services and features and the lesser of (i) the monthly recurring rate for each service component that has been canceled as a result of the change times the appropriate minimum service period, plus the applicable installation or non-recurring charges, and (ii) the costs incurred by the Company in accommodating each change, less net salvage.

Costs incurred by the Company will include the direct and indirect cost of facilities specifically provided or used; the costs of installation, including design preparation, engineering, supply expense, labor and supervision, general and administrative, and any other costs resulting from the preparation, installation and removal effort.

If the Customer or applicant delays activation of his service during the period thirty (30) days preceding the scheduled installation date for a period of more than one (1) week, normal charges for local distribution facilities (LDF) shall apply from the scheduled date of installation. In the event that the Customer-induced delay exists for more than thirty (30) days after the scheduled installation date, the Company may consider the delay a cancellation of application for service.

If special construction has been started prior to cancellation, a charge equal to the costs incurred in the special construction, less net salvage, applies. In determining the charge, cancelled service is treated as discontinued as of the date on which it was to have started when the Company incurs any expense in connection therewith or in preparation therefore which would not otherwise have been incurred, provided that the Customer or applicant had advised the Company in writing not to proceed with the installation or special construction.

If the Company should assume a termination liability or other obligation for an access facility, that liability or obligation shall be the responsibility of the Company's Customer.

**9. DATA SERVICES (Continued)****9.1 Terms and Conditions (Continued)****9.1.1 Application for Service (Continued)****A. Cancellation of Application for Service**

When the Customer or applicant has requested the Company to cancel the application for service prior to service installation, cancellation charges will apply. Cancellation charges for both the underlying services and Local Access Facilities will be based on the stage at which the Access Service Request ("ASR") is at, either the Pre-Access Service Request ("Pre-ASR") or the Post-Access Service Request ("Post-ASR") stage.

The Pre-ASR stage is when the ASR is complete but has not yet been sent to the Local Exchange Company ("LEC") or the Alternate Access Vendor ("AAV"). The Post-ASR stage is when the ASR is complete and has been sent to the LEC or AAV.

The amount of the cancellation charge will vary according to the category of service ordered and at which stage the cancellation occurred (Pre-ASR or Post-ASR). Categories of services are: (1) the Service Component based on IXC ordered and; (2) the Access Component based on type of access ordered. See Service Cancellation Charges in this Tariff.

**B. Change of an Application for Service**

An Application for Service may be changed by the Customer upon written notice to the Company, subject to acceptance and confirmation by the Company provided that a charge shall apply to any change when the request is received by the Company after notification by the Company of the acceptance and confirmation.

Such charge shall be the sum of the charges and costs for Private Line Service incurred by the Company in accommodating each change including the direct and indirect costs of facilities specifically provided or used; the costs of installation (including design preparation, engineering, supply expense, labor and supervision, general and administrative) and any other costs resulting from the preparation, installation and removal effort.

**9. DATA SERVICES (Continued)****9.1 Terms and Conditions (Continued)****9.1.2 Obligations of the Customer**

In instances where the Company is connecting its service to the Customer's own Customer-provided communications system or equipment, or to any service or equipment provided by others, the Customer must ensure that the equipment or system must provide answer supervision upon the delivery of the call to the switching equipment or to the equipment connected to the communications system. When service is directly connected to a communications system at a Customer's premises, answer supervision must be provided when the call terminates in or passes through the first Customer premise equipment on that communications system, such as but not limited to when a call is (1) answered by a local station; (2) answered by an attendant; (3) routed to a recorded announcement; or (4) routed elsewhere by the switching system.

The Customer must obtain an adequate number of facilities for Company Services to handle the Customer's expected demand in order to prevent interference or impairment of this service and or any other service provided by the Company considering (1) total call volume; (2) average call duration; (3) time-of-day characteristics and (4) peak calling period. The Company, without incurring any liability, may disconnect or refuse to furnish any toll free service to a Customer that fails to comply with these conditions. In case of disconnection, the Customer will be notified at least five days in advance of the disconnect. Notification may be by mail or in person.

In compliance with the obligations imposed on the Company by the **FCC**, Customer represents and warrants, on behalf of itself and its affiliates, subsidiaries, and agents, that it is not a reseller and that it does not intend to resell the services or engage in other activity that would require the Company to verify Customer's authorization as a reseller as required by 47 CFR 64.1195. If Customer or its affiliates, subsidiaries, or agents breach these representations or warranties, this agreement will terminate immediately and subject Customer to the liability imposed for termination by the Company for material breach. These provisions are not intended to prohibit resale, but are intended to prevent misrepresentations by resellers in an attempt to circumvent the rules or regulations of the FCC, or other governmental bodies with jurisdiction over the provision of communications services for resale.

Under no circumstances shall the Company be responsible for any direct, indirect, special, incidental or consequential damages arising directly or indirectly from the provision of service using such facilities, including without limitation any loss of Customer income or profits. The Customer shall indemnify and hold harmless the Company from any and all claims, actions, costs, expenses and damages associated with or arising out of Customer's use of such facilities.

**9.1.10 Discontinuance of Service without Liability**

A Customer will not be penalized for discontinuing a private line agreement if:

- A. A revision in the Private Line Services Tariff provisions results in higher plan rates for the plan to which the Customer has committed. The Customer may request affected circuits be disconnected up to 30 days after the effective date of the higher Tariff rates without penalty. Otherwise, the Customer's existing agreement remains in effect and the new rates will be billed.

**9. DATA SERVICES (Continued)****9.2 Local Access Facilities****9.2.1 General Description**

In order to subscribe to the Company's data products with dedicated access, the Customer must gain entry to the Company's network by means of Local Access Facilities. Such Local Access Facilities will generally be ordered from local telephone companies in the Customer's name, by the Company, as agent. The Company will bill the Customer for these facilities.

Any special construction or non-standard charges assessed by the local telephone company supplying the Local Access Facility will also be the responsibility of the Customer. On occasions when alternative facilities are necessary (those provided in lieu of Company-designated access provided facilities), the Company will charge the Customer according to the rates and charges set forth in this Tariff unless Special Service Arrangements are involved as described in Section 9.1.8 of this Tariff.

The Company's scope of work for alternative access facilities may include, but are not limited to, detailed assessment or engineering studies, alternative vendor interface and installation supervision.

Central Office Connection charges apply in all cases in which a Customer wishes to connect to the Company network. The applicable charges are determined based on the type of access interconnected.

Access Coordination will apply in those cases where the Company acts as the Customer's agent and orders Local Access Facilities. The applicable charges are determined based on the type of access ordered.

Local Access Facilities for 56 Kbps, T-1, T-3, OC-3, and OC-12 access require a minimum commitment period of one year, unless otherwise defined through a vendor-provided term plan offering (ordered by the Company on behalf of the Customer via a letter of agency from the Customer). Any termination liabilities incurred by the Company as a result of such plans shall be solely the responsibility of the Customer.

Charges for Local Access Facilities are applied based upon the applicable local exchange company's rates and charges.

The Company reserves the right to restrict interconnection at either the wire center serving the Company POP or the Company POP itself.

9. DATA SERVICES (Continued)9.3 Frame Relay Service9.3.1 General Description

Frame Relay Service is a fast packet network that permits the transmission of data at speeds of 56 Kbps, 64 Kbps, 128 Kbps, 256 Kbps, 384 Kbps, 512 Kbps, 640 Kbps, 768 Kbps, 1.544 Mbps, or 44.210 Mbps using Permanent Virtual Circuits (PVCs) to connect multiple Local Area Networks (LANs). Frame Relay Service is currently available throughout the contiguous United States where Local Access Facilities are available.

There are three primary components to the monthly recurring pricing of Frame Relay Service: Local Access Facilities (dedicated), Access Channels (ports) and Permanent Virtual Circuits (PVCs).

Local Access Facilities must be obtained to access Frame Relay Service and are available at the following data speeds: 56 Kbps, T-1 and T-3.

Access Channel port speeds are selected to accommodate the various PVCs that will use that particular Access Channel. Access Channel data speeds range from 56 Kbps to T-3 (45 Mbps). The Access Channel must be large enough to accommodate the cumulative egress of all PVCs connected to a particular Access Channel.

PVCs interconnect the Customer's specific end-points on the interexchange network. PVCs use packet-switching technology to automatically route around network-related failures. PVCs are pre-defined for each pair of end-point devices so a virtual network path (circuit) is always available without any call set-up delay. This results in faster access to the network, better response time for end user applications, and a high degree of network security. The Company's PVCs are Frame Relay for LAN.

For service, the date the service is installed and available, or the date specified on the Customer's order form, whichever is later, will be the date on which all nonrecurring charges will be invoiced and invoicing for all recurring charges will commence.

Customers may subscribe to Frame Relay Service for one, two or three years.

**9. DATA SERVICES (Continued)****9.3 Frame Relay Service (Continued)****9.3.2 Term Plan**

Customers may subscribe to Frame Relay Service under one, two or three year term plans. The rates in effect for Frame Relay Service and Local Access Facilities at the time the Customer commits to a term plan will be fixed for the duration of the term plan. The term will begin on the first day of the month following the date the service is installed and available. Upon expiration, the term will be automatically extended at the term plan rates for successive ninety (90) day periods, unless sixty (60) days prior to the end of the term or each such extension either (a) the Customer or the Company provides written notice to the other that it does not want such extension, or (b) the Customer subscribes to another term plan for which the rates of the new term will apply.

If additional Customer sites are added to a Customer's Frame Relay Service after the initial subscription to a term plan, such sites will be incorporated into the Customer's term plan and will have the same termination date as the Customer's original term plan. Existing Customers may subscribe to a new term plan for Frame Relay Service of the same or greater value prior to the end of the Customer's existing term plan without incurring any termination liability if the new term plan extends beyond the old term plan termination date by at least one year or if the new term plan is for three years.

**9.3.3 Termination Liability**

To terminate Frame Relay Service the Customer must provide the Company with thirty (30) days prior written notice.

Customers terminating service prior to fulfilling their term commitment will be assessed a termination liability in an amount equal to a lump sum of fifty percent (50%) of the monthly recurring charges for each circuit cancelled multiplied by the number of months remaining in the term plan. Customer will not have any termination liability if another Company service of the same or greater monthly price and volume and a term no less than the remaining months of the term plan or one (1) year, whichever is greater, is ordered at the same time the notice of termination is received. Customer will also be liable for a pro-rata amount of any waived installation charges based on the number of months remaining in the term plan.

If service is terminated by the Company for cause and the Customer has subscribed to service under a term plan, the Customer will be charged the termination liability associated with the term plan.

**9. DATA SERVICES (Continued)****9.4 Private Line Services (Continued)****9.4.3 Term Plan**

Customers may subscribe to Private Line Services under one, two or three year term plans. The rates in effect for Private Line Services and Local Access Facilities at the time the Customer commits to a term plan will be fixed for the duration of the term plan. The term will begin on the first day of the month following the date the service is installed and available. Upon expiration, the term will be automatically extended at the term plan rates for successive ninety (90) day periods, unless sixty (60) days prior to the end of the term or each such extension either (a) the Customer or the Company provides written notice to the other that it does not want such extension, or (b) the Customer subscribes to another term plan for which the rates of the new term will apply.

If additional Customer sites are added to a Customer's Private Line Service after the initial subscription to a term plan, such sites will be incorporated into the Customer's term plan and will have the same termination date as the Customer's original term plan. Existing Customers may subscribe to a new term plan for Private Line Services of the same or greater value prior to the end of the Customer's existing term plan without incurring any termination liability if the new term plan extends beyond the old term plan termination date by at least one year or if the new term plan is for three years.

**9.4.4 Termination Liability**

To terminate Private Line Services the Customer must provide the Company with thirty (30) days prior written notice.

Customers terminating service prior to fulfilling their term commitment will be assessed a termination liability in an amount equal to a lump sum of fifty percent (50%) of the monthly recurring charges for each circuit cancelled multiplied by the number of months remaining in the term plan. Customer will not have any termination liability if another Company service of the same or greater monthly price and volume and a term no less than the remaining months of the term plan or one (1) year, whichever is greater, is ordered at the same time the notice of termination is received. Customer will also be liable for a pro-rata amount of any waived installation charges based on the number of months remaining in the term plan.

If service is terminated by the Company for cause and the Customer has subscribed to service under a term plan, the Customer will be charged the termination liability associated with the term plan.

**106. OBSOLETE BUSINESS SERVICES (Continued)****106.1 Legacy Message Telecommunications Service (MTS) (Continued)****106.1.1 Real Solutions Annual II**

Real Solutions Annual II is a packaged telecommunications service which offers customers using either domestic and/or international calling the flexibility to choose a flat rated option that is neither distance, time-of-day, day-of-week or usage sensitive (via switched access) for their outbound, toll free and switched data usage.

Real Solutions Annual II services allow for subscriber defined invoicing and reporting. Domestic calls will be billed an eighteen (18) second minimum. After the initial 18 second minimum, calls will be billed in six (6) second increments.

Usage rates are set forth below. Real Solutions Annual II for intrastate use is sold as an add-on service to the Company's interstate offering.

Real Solutions Annual II has four minimum annual commitment levels. The \$12,000 and \$36,000 commitment levels each have one through three-year commitment terms. The \$60,000 commitment level has one and three year commitment terms. The \$300,000 commitment level has a one-year commitment term. Real Solutions Annual II is available to single and multi-location customers for outbound calls which originate using switched access facilities and terminate using shared use facilities. A term plan will automatically renew for an equivalent term and minimum annual commitment level unless the customer provides written notification to cancel the plan, with such notification being received by the Company not less than 45 days prior to the expiration of the term.

The Real Solutions Annual II customer must commit to one of the following minimum annual commitment levels of contributory usage charges: (1) \$12,000, (2) \$36,000, (3) \$60,000, (4) \$300,000. Real Solutions Annual II is available on a one-year, two-year or three-year basis for the \$12,000 and \$36,000 commitment levels; a one-year or three-year basis for the \$60,000 commitment level; and a one year basis for the \$300,000 commitment level. Contributory usage charges (calculated prior to the application of any discounts) are aggregated across outbound, toll free, switched data (inbound and outbound), including all calling options; all locations and all jurisdictions (intrastate, interstate and international) in order to meet the minimum annual commitment level.

The Company reserves the right, after the conclusion of the first three billing months of the Real Solutions Annual II customer's contract, to move the customer to a lower commitment level that is more directly comparable to the customer's current usage.

Voice Solutions customers terminating all Voice Solutions services prior to fulfilling their term commitment will be assessed a termination liability in an amount equal to the underutilized portion of the MAC plus the full MAC for any remaining 12 month periods in their term plan agreement.
